Design District

DB Schenker Fairs & Events
Officiële logistieke dienstverlener

Dear Design District exhibitor,

Puur Design Productions has requested DB Schenker to assist you with our logistics services. DB Schenker seamlessly combines freight forwarding and on-site handling services to provide a complete 'door-to-stand' package varying from a single box of brochures to an exclusive interior.

The logistics area at the Van Nelle Fabriek is relatively small, which often causes pressure on the available space and delays for stand builders and exhibitors. DB Schenker offers a solution to this issue whereby you can deliver your goods to our external warehouse before the exhibition and we deliver it to your stand on the requested day and time. Hence, all material is there before you start working and it is no longer necessary to worry about if your goods have arrived or are still stuck in traffic.

Apart from the special service, we gladly take all other logistics from your hands, so you can focus on representing your company. We can assist you with:

- transport of the goods from the company to the event and vice versa
- custom clearance
- unloading and/or reloading the goods at the venue
- temporary storage of the goods before or after the event
- storage of empty packing material during the event

These materials should be suitable for the storage of empties as well as return or further transport. All packing must be equipped with skids for handling by fork-lift truck and pallet truck.

4. Liability and insurance

Furthermore, we do not accept liability for any goods left in the empty crates, boxes or packing material.

Waiting times according the regulations of the event organization are not our responsibility. Possible damages etc. have to be reported immediately and in writing to our on-site event office at the venue. Verbally mentioned claims will not be handled.

The goods are not insured by Schenker, unless this has been confirmed in writing and is mentioned on the order. These services are always carried out at the expense and risk of the customer. We recommend taking out a global fairs and event insurance, for transportation as well for during the event, to insure yourself against any losses or damages to your goods. Of course, we also can arrange such an insurance if required.

All transactions are subject to the Dutch Forwarding Conditions, including arbitration clause, in the latest version deposited by FENEX at the Registry of the District Court at Amsterdam, Arnhem, Breda and Rotterdam, latest version applicable. The general conditions can at all times be consulted via www.fenex.nl and will be sent to you upon request free of charge.

Our invoices are drawn up according the current rate and are calculated on a net basis. All invoices are drawn up per exhibitor and/or stand and are due for payment immediately after receipt.

6. General Terms and Conditions

§ 1

The exhibition freight handling tariff is valid for all operations and services undertaken on the Van Nelle Fabriek exhibition ground by the official and exclusive forwarding agent of Puur Design Productie. This includes all on-site handling of freight and carrying out of all necessary formalities for both do-mestic and foreign shipments.

§ 2

The official tariff will form the basis for all invoices by the official forwarder. Prices shown are maximum rates, calculations 1 cbm = 300 kg, and excluding VAT. Commission will be levied on the chargeable weight of the goods handled, or failing this a lumpsum will be charged based on the time and equipment used in carrying out an order.

Orders, which are placed 5 days prior to service day or more, are considered as pre-ordered. For orders for empty packaging storage or storage of goods, which are placed after 12,00 a.m. on the last setting-up day, Schenker will charge a supplement of 50% on the applicable tariff because of the additional work involved. The same applies to orders placed at the correct time, but where, by the end of the normal setting-up period, the empty packaging or goods has not yet been made ready for collection by the client. The times involved shall be understood as the normal setting-up times outlined in the schedule of times and dates for the relevant event.

For ad-hoc forklift services we will charge a minimum of 1 hour and in general we are calculating in half-hour units.
